ARMSTRONG CORK COMPANY  
FLOOR DIVISION                      LANCASTER, PENNSYLVANIA, U. S. A.

*One of the latest and most popular design trends in home furnishings today is the leaf motif. In Armstrong's Quaker Rug No. 4725, this trend is brought out in a taupe coloring of a beautiful fern leaf design.*

## **SAFETY-BACK AND 12-FOOT WIDTHS FEATURE ARMSTRONG'S FELT-BASE PRODUCTS**

**A**RMSTRONG'S Quaker and Standard Rugs and Floor Covering today offer many exclusive advantages. Rugs larger than the conventional 9 x 12-foot standard size, extra-wide 12-foot floor covering, and the new Safety-Back feature, are included in these important advantages.

### **LARGER RUGS**

To meet the demand for larger-sized rugs, Armstrong installed special exclusive equipment for the manufacture of bigger, easy-to-clean Quaker Rugs. Now they can be obtained in two new sizes—12 x 12 and 12 x 15 feet. These larger rugs, which are made only by Armstrong, fit into average size rooms much more attractively and cut down floor upkeep as well. Prices on the larger-sized rugs are quite reasonable. The extra cost per square yard for a 12 by 15-foot Quaker Rug over that for a 9 x 12-foot rug is only a few cents and the advantages of the large rug far outweigh the slight difference in price.

### **EXTRA-WIDE FLOOR COVERING**

Every homemaker knows that the fewer the number of seams in a felt-base floor the fewer edges there will be to come loose under traffic and to catch dirt. Many of these women have discovered that both Quaker and Standard Floor Covering are now available in the full four-yard width. In many cases the

greater width permits seamless one-piece installations on floors which formerly would have required two strips of material. The elimination of matching waste is another advantage of Quaker and Standard Floor Covering in creating seamless floors. Frequently, a one-piece floor can be made to cover two adjoining rooms without a seam, by using 12-foot-wide floor covering.

### **SAFETY-BACK**

Another new exclusive Armstrong feature—Safety-Back on Quaker Floor Covering, makes it possible to paste felt-base direct to wood floors and to remove it at any time without tearing the goods or damaging the subfloor.

When felt-base is pasted down, loose edges and overlapped seams are eliminated and a better installation is obtained. With ordinary felt-base, pasting direct to wood floors with all its advantages, is highly impractical because the goods will not come loose without great difficulty when the time comes for removal. Quaker Floor Covering with Safety-Back now eliminates that problem and permits the material to be pasted down and easily removed later. Safety-Back also makes it unnecessary for the mechanic to return to the job for the annoying retrimming operation. Safety-Back may be identified by its mottled red coloring. It is found only on Armstrong's Quaker Floor Covering.
